Inhalt des Workshops/ Contents of the workshop

Successful grant proposal writing is a fundamental basis to fund a career in research. There are plenty of national and internatio funding programmes with different funding schemes. Each scheme has its individual context and thematic focus, eligibility a funding rules, submission and evaluation process, and evaluation criteria. Thus, the detailed features and aspects of a success proposal in one funding scheme are naturally differing from those of a successful proposal in another funding scheme. Howev the process of how to work out these details is a common denominator to the different funding schemes. It requires skills w beyond the ability to work out a research idea in detail.

Process Steps of the Workshop:

- ▶ Identification of the right funding scheme
- ► Assessment of the framework defined by the funding scheme
- ▶ Mapping the research idea to the framework to achieve a high relevance
- ► Setting up a concept for the project
- Identification of necessary expertise and resources
- ► Structuring the proposal
- ► Visualisation
- ► Formulation of the different parts of the proposal with regard to the framework and the evaluation criteria
- ► Coordination of the proposal writing and submission process
